If Culture Comes First, Performance Will Follow

Denison Culture Model: Overview. External Focus and Internal Focus. External Focus: Adaptability + Mission The organization’s focus is on adapting and changing in response to the external environment. Internal Focus: Involvement + Consistency. The organization’s focus is on the dynamics of the internal integration of systems, structures,...

Employee Engagement and Organizational Culture What’s the Difference

The culture is dictated by leadership, systems and processes which influence both employee and organizational behavior. Engagement is the level of commitment which an employee or group of employees will give to an organization on both an emotional and intellectual level. These are not HR issues they’re business issues. A company’s culture and engagement used to be something that you only found out about when you actually worked somewhere.

A Primer on the 5 Most Popular Organizational Culture Models

Denison’s Performance Analytics connects the dots between culture and outcomes, like employee engagement. With the Driver Analysis, you will be able to pinpoint the areas of your culture that will have the greatest impact on the outcomes you care most about. This knowledge will allow you to make targeted interventions to maximize impact.
